

Quality Policy Statement

COLE Group is a construction services company delivering supply, installation, testing, commissioning and building maintenance services.

The Directors and Senior Management of COLE Group are fully committed to this quality policy to achieve sustained, profitable growth by providing services that consistently satisfy the needs and expectations of our clients, whilst also conforming to all contractual and regulatory requirements.

The company encourages and strives for continual improvement to enhance the effectiveness of its operations and the performance of the quality management system. Our vision is to deliver service excellence through our quality of work.

We shall establish clear objectives to ensure the provision of products and services to consistent high standards; we recognize that in order to provide and maintain a consistent high quality of work, a quality management system is necessary to ensure effective communication, work control and record generation.

Our integrated management system (IMS) defines which quality management system will be used to achieve the objectives set out.

We shall regularly monitor and review the quality management system to ensure it remains efficient and effective.
